WILL CONFER ON FINANCING ROADS

NEW YORK, April 10.—Bankers and business men from several important cities will go to Washington tomorrow to confer with Secretary of the Treasury Glass and Director General Hines with a view to evolving a satisfactory plan for financing the country's railroads. Railroad men will also attend the conference. The financial situation of the roads is regarded as critical by the bankers. It is considered probable that a special session of Congress will be asked at which legislation authorizing the Government to take over part of the burden of financing might be introduced.

MEXICANS DERAIL TRAIN; AMERICAN IS INJURED

An American, J. P. Mennet, was injured Friday when bandits derailed a passenger train near Tampico, Mexico, according to advices received here by the State Department. Further particulars have been asked by the department. Monterey newspapers report that the train was derailed by rebels; that a number of those on board were wounded, and that some of the train equipment was burned. A further report says that a Federal guard was killed. On the day before the derailment, a party of San Antonio business men traveled over the same route.

Paris "Blue Pencils" American Reports of Peace Parley Split

PARIS, April 10.—The French censors were busy Tuesday handling the Paris edition of the Chicago Tribune and New York Herald, as the result of the present tension in the conference.

A headline in the Tribune read: "peace conference (blank) says Wilson, George Washington coming." The second blank of the headline was a complete blank. At intervals in the news matter appeared blank spaces with such notices, "38 lines censored," "29 lines censored," etc.

A big white space appeared in the middle of the Herald's story of the conference.

QUEBEC IS VOTING ON BEER AND WINE

MONTREAL, April 10.—The province of Quebec is voting today to decide whether beer and wine shall be eliminated from the provisions of the prohibition act, which will make Canada dry May 1.

Last night both wets and dries held demonstrations, but the wets predominated, with thousands of torch bearers marching to the strains of "The Marseillaise." When rain began falling early this morning, wets rallied this as an omen of success.

Travelers arriving from eastern Quebec and interior points say the rural districts will cast a slight majority in favor of beer and wine. With Montreal's unquestioned large vote, this leads many to believe this province will be the only wet-part of the Western Hemisphere north of Mexico remaining after July 1, when the United States goes dry.

WILL USE POISON GAS TO WAR ON INSECT ARMIES

PARIS, April 10.—Poison gas, used to such good effect in exterminating the enemy during the war, will shortly be extensively used in exterminating caterpillars and injurious larvae, according to General Bertrand, a scientist, who predicts that poison gas will in the future play an important part in agriculture and husbandry. Satisfactory tests have already been made.

HUNGARIAN DRUNKS WILL BE EXECUTED

Persons are liable to death also if found in the streets of Budapest after 9 p. m.

Government Employees and the Salary Question

HON. EDWARD KEATING, Secretary of Joint Commission on Re-classification of Salaries, says in part:

"We are dealing with the bread and butter of approximately 100,000 human beings. To them our decisions are vital and they have a right to know the process by which we reach our conclusions. The Government employees must not only be given a square deal, but they must know that they are receiving a square deal. It was with that thought in mind that the Commission asked Mr. Luther C. Steward, President of the National Federation of Federal Employees, to attend the first informal meeting."
